Professional Summary

Junior Frontend Developer with hands-on experience building responsive web applications using React, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, and REST APIs. Strong problem solving, teamwork, accessibility awareness, and clean UI implementation skills.

Skills

React, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap, Node.js, Express, MongoDB, Mongoose, REST API, Git, GitHub, UI/UX, Figma, Problem Solving, Communication, Teamwork

Experience

Frontend Developer Intern - BrightTech Solutions | Cairo, Egypt | 2024 - 2025

- Built reusable React components for job listing and dashboard pages.
- Integrated frontend pages with REST APIs using fetch and JSON responses.
- Improved responsive layout, form validation, and accessibility for users with different needs.
- Worked with GitHub and team members to review code and fix UI bugs.

Projects

Accessible Job Platform

- Developed candidate signup, job cards, search filters, and application pages using React and TypeScript.
- Added accessibility-focused UI features such as clear buttons, simple text, keyboard-friendly navigation, and high contrast support.

Online Portfolio Website

- Created a responsive portfolio using HTML, CSS, JavaScript, and Tailwind CSS.

Education

Bachelor of Computer Science - Faculty of Computers and Information | 2021 - 2025

Languages

Arabic: Native | English: Good

Accessibility Preferences

Prefers remote or hybrid work, flexible hours, clear written instructions, and accessible digital tools.
